

# Looking for the future of flight?

Come see it in Hampton at the  
NASA Langley Research Center Open House  
Saturday, April 28, 9 a.m. – 4 p.m.

- ✦ Check out a hangar full of research aircraft, including a new generation of personal transportation equipped with NASA innovations to make flying easier and safer.
- ✦ Look inside the human body and everyday objects, using technology NASA invented to inspect airplane wings and spacecraft hulls. (Kids – bring a toy and explore how it's constructed ... without having to take it apart!)
- ✦ Immerse yourself in virtual reality to see how NASA uncovers the secrets of the atmosphere.
- ✦ Design an airplane of the future or build and fly a gyrocopter.
- ✦ Visit with a NASA astronaut.
